---

Webmaster. There is the TS1 site, which is to be called Tomspare, and a site on Matt's Dreamhost called Optimist that will be called the Matttspare site. They will both have full versions available on the web, and the TS1 site will have all the extra stuff from FRTD, RMSP, and all of the others will have the main info. The reason for having two sites is that we will be doing a better job keeping the two sites in sync. You won't be able to get to the TS1 site from the Matt's Dreamhost site (well, you can, but there will be a whole list of links to try to get there). But you can always get to both sites using the same link. If you'd like to help out, there is the link at the top of each page for you to send a donation. 06.03.01  
NEW EXTRA: There is an HTML file available for viewing up-to-date information. It is hosted by us, and is generally only a few minutes behind what we're doing. If you are interested in getting the most recent information, it is available at: 13.10.00

---

LATEST RECAP: THINGS TO DO: The pages will be here until the transition. THE THING: James has finished up compiling a list of the major sub-forums on ePlaya, so it should be ready soon. Some of them are rather large

---

data processing and more particularly to the field of task management. In computer systems, there are often multiple software modules that are in charge of a task. One way to organize tasks in a hierarchical fashion is to have a plurality of layers of software modules. The different software modules have different functionalities and generally operate in turn, one after the other, to carry out tasks. Because most software modules, such as application and operating system modules, are commercially available and can be readily applied to most computer systems, most computer systems have a large number of software modules for handling tasks. This tends to make the combination of all the software modules together for handling the tasks take up a large amount of memory space. The memory space occupied by the multiple software modules is wasted if there is no task to be carried out in that memory space. Voyager 1's rapid approach

---

towards interstellar space has created a gravity-wave "ring" around the solar system -- and scientists are ecstatic.

Launched in 1977, the two Voyager spacecraft have been sailing through space since then, heading ever deeper into the

I'm new to kickass and I downloaded this awesome game in the beta stage. I was playing for 1 hour and I found out there is no way to continue my game unless you pay. Are there any ways of going forward in the game without having to pay for the game. I didn't get a confirmation email.

Also, I've been playing for a while and I completed the missions, I read that you get an achievement for completing the mission and I didn't find any of those achievements from doing the missions. Also, does anyone know how long it take to beat the game? It seems very long to me. Sorry if these questions are dumb but i just downloaded

---

the game and I can't find any unlockables in the game. I'm just wondering if there are any ways to unlock them. Please help.

Hello there, Thanks for your time. My friends and I have recently downloaded the game by Nicholas Knauf and I was wondering if anyone can help us. I

downloaded the game and I got the full version, and when I was playing and while I was searching through the game for some epic weapons and stuff I found a code that

I ended up cashing out for money and I know that for the time being I am only in the beginning stages of the game. One of my friends wants to continue on his journey with me but he didn't get the code that I had and when I went to the in-game store to see if I could buy another code I didn't find anything and I have no idea on how to get one. I have the game version 1.2. Thank you in advance for any help you can give. I wouldn't be here if I could figure out how to get the code. I don't know much

---

about how to game but I know how to google stuff. I have the full version of the game, but I can't figure out how to get the code. I found it was different on different computers and while I'm now on the full version, I'm on version 1.2. Hi, I'm trying to figure out how to get the Campaign Forged - Wind II: Reunion DLC. I have the full version, I got it months ago and I didn't play it much and I know there are
